

**To all PSSA Plan participants:**

The Compensation and Employee Benefits Division wishes to provide the following clarification with respect to the article titled “Annual rate of indexation to PSSA pensions for the last three years” recently featured in the *PSSA Echo* Newsletter Vol. 4, 2007.

Inadvertently, the Annual rate of indexation noted for 2007 should have read 2.48% instead of 1.78%.

The Compensation and Employee Benefits Division apologizes for the confusion this oversight may have caused.
